

## CURRICULUM VITAE – Hang Su

Employment: Research Group Leader  
Max Planck Institute for Chemistry  
Work address: Hahn-Meitner-Weg 1, Mainz, 55128, Germany  
Phone: +49-6131-305-7300  
E-mail: h.su@mpic.de

**Research Interests**

Multiscale multiphase processes relevant for the Earth Science, including

- Atmosphere-soil exchange of reactive nitrogen species
- Multiphase processes in the formation and transformation of clouds and aerosols

Over 70 peer-reviewed journal articles including 5 **hot papers** (top 0.1%), 9 **highly-cited papers** (top 1%) and 9 publications in interdisciplinary highlight magazines (4 in **Science**, 2 in **Science Advances**, 2 in **PNAS**, 1 in **Nature Communications**) with substantial international press coverage (e.g., Wired, Discovery News Channel, Chemistry World, Xinhua News etc.).  
Citation report Google scholar: h-index = 35, > 4500 citations

**Professional Career**

Since 2015 Group Leader (tenured), Max Planck Institute for Chemistry, Germany  
Since 2018 Director, Center for Air Pollution and Climate Change Research (APCC), Jinan University, China  
2014-2017 Guest Professor, University of Science and Technology of China, Hefei, China  
2012-2015 Group Leader, Max Planck Institute for Chemistry, Germany,  
2008-2012 Postdoctoral Researcher, Max Planck Institute for Chemistry, Germany,

**Education**

2003-2008 Ph.D., Peking University, Beijing, China  
1999-2003 Bachelor of Science, Fudan University, Shanghai, China

**Awards and Honors**

2017 Invited commentator on air pollution control by Ministry of Environment Protection of China  
2017 Outstanding Reviewer, Elsevier  
2014 iLEAPS Top 10 publications  
2013 Union Arne Richter Award for Outstanding Young Scientists, European Geophysical Union  
2012 Highest Impact Work of Chinese Scientists in 2011, Chinese Academy of Science  
2009 Union Young Scientists' Outstanding Poster Paper Awards, European Geophysical Union  
2001 Outstanding student of Shanghai (top 0.1%), China  
1999 – 2003 Numerous outstanding student Award (top 1%), Fudan University, China

**Positions of trust and consulting**

Since 2013 Associate Editor of Atmospheric Chemistry and Physics  
Since 2007 Manuscript reviewer for Science, Nature Geosciences, Nature Communications, Angewandte Chemie, ACP, JGR, GRL, ES&T, etc.

**Student supervision and teaching**

Principal (co-) advisor of: 10 Ph.D. students (4 ongoing)  
10 post-doctoral researchers (2 received “1000 Talent” Young Scholar Award in China)
